

Year 5

Place and Time:

Geography: Alongside the children's independent geographical research of the United Kingdom and their chosen county, our Geography learning this term will support their independent research by focusing predominantly on map skills. Our learning will include developing skills in: reading Ordnance Survey Maps through interpreting map symbols; using four- and six-figure grid references and the eight compass points to build their geographical knowledge of the United Kingdom; and combining all of these skills to plan their own routes and journeys across the UK.

History: Through their independent project work, the children will explore and research the significant events in history of their chosen county. They will evaluate primary and secondary sources in the form of maps and photographs to present and discuss the changes and continuities in the human and physical characteristics of their county and the United Kingdom overall.

Science:

This term, the children will be learning about the difference in sexual and asexual reproduction in plants. They will be planting tulips bulbs, strawberries and potatoes and observe over time, how the plant adapts to its environment.

Faith and Belief:

- Islam - Being human

What Unites the United Kingdom?

This term, Year 5 will be researching and exploring the geography and counties of the United Kingdom. They will have the opportunity to produce an independent project based on their research of their chosen county; looking into its major cities, famous landmarks, agriculture and history. The children will also use the intricate map skills gained in our geography learning this term to explore maps of the United Kingdom and their chosen county.

Computing and IT:

- Computing systems and networks - systems and searching.

English:

- Setting and character description
- Persuasive Texts - Holidays in the UK
- Novel study - Wonder by R.J. Palacio

Mathematics:

- Multiplication and division
- Fractions

Physical and Emotional Health/Citizenship and Ethics:

- PSHE - Celebrating difference - Respect for similarity and difference. Anti-bullying and being unique
- PE - Gymnastics and volleyball

Arts and Creativity:

- Music - Sing and play with different styles.

French:

- Café culture and restaurants
