

Dunholme St Chad's Year 2 Term 3 Knowledge Organiser

Geography - Geographical skills and fieldwork.

What should I already know?

- The names of the continents and oceans of the world.
- Where hot and cold areas of the world are.
- Where the equator, North and South Poles (hot and cold areas) and explain how this is related to the weather and temperature.

Key vocabulary I need to know

atlas	A book of maps
capital city	The place where the government is based.
contents page	At the beginning of a book to show what each page is about. The information is in page order.
globe	A model of the Earth that shows what it looks like from space.
index page	At the end of a book to help you find information. The words are in alphabetical order.
journey	To travel from one place to another.
landmarks	An object or feature of a landscape or town.
location	A place or position.
map	A drawing of a place from above.
United Kingdom	A country made up of England, Scotland, Wales and Northern Ireland.

What I will know by the end of the term

- How to use world maps, atlases and globes to find places in the UK and around the world.
- To be able to use the contents page in an Atlas.
- To be able to use the index page to find places in an Atlas.
- To use an atlas to locate the capital cities on a map of the UK.

The United Kingdom
