

Year 5

History

The children will learn the sequence of events leading up to, and during, WWI and WWII. Through their exploration of different sources and artefacts, the children will begin to understand the causes and consequences of the world wars and their impact today's society. We will look at the war from the perspectives of the German soldiers as well as the British and analyse the similarities and differences between the two.

As well as this, we will also be focusing on the war through a local study; looking at what life was like in Lincolnshire and what contributions it made during WWII.

Geography

Our Geography learning will link closely to our Historical learning through the location and identification of countries and continents associated with the Allies and Axis of WWII. We will also use atlases and maps to locate countries of Europe involved in WWII, as well as looking at maps of Lincolnshire to locate significant air bases.

Science

Our science learning is heavily investigative this term and focuses on materials and their properties. Children will be separating different materials and investigating which processes are reversible.

The World at War What can we learn from a World at War?

This term, Year 5 will explore the historical significance of World War I and World War II. They will immerse themselves in understanding what it was like to be a soldier during wartime, as well as understand what life was like for those on the Home Front. Through their analysis and exploration of numerous historical sources, the children will have a greater understanding what it was like to be evacuated, to 'Dig for Victory', to 'Make do and Mend' and to fight for King and country.

Computing and IT

- Multimedia - Video production
- E-Safety - Online Bullying

French

The children will be learning how to discuss their learning in school, including their favourite subjects.

English

- War Poetry
- Information report - WW1
- Narrative - A Story of an Evacuee
- Novel Study: Goodnight Mister Tom by Michelle Magorian

Mathematics

- Number and Place Value
- Addition and Subtraction

PSHE and P.E.

- PSHE - Being in my world - Who am I and how do I fit?
- PE - Netball and Fitness

Arts and D.T.

- DT - Making an Anderson Shelter
- Music - Get Set 4 PE - Rock and Roll

R.E.

- Learning about Buddhism
- Children will learn how people express their beliefs through worship and caring for others.
