

How to connect to us for a Live Google Meet session.

When you get notification from the class teacher, log into your Google Classroom and look for the camera icon. If you cannot see a camera icon, refresh your page.

Once clicked it will navigate to the Google Meet page. It may ask you to download the Google Meet App the first time you join.

You should now see a button that says join... click it and you should be in. We ask that everyone mutes their microphone in entry until asked to do otherwise by their teacher.

We ask that you do not click this icon or link unless you have been directed to. If the link disappears it is because the teachers have not made it visible for access.
